L2.05-5 INSTRUCTIONS TO OFFERORS - COMMERCIAL ITEMS (PC&S) (DESC AUG 1998)

(a) **AMENDMENTS TO SOLICITATIONS.** If this solicitation is amended, all terms and conditions that are not amended remain unchanged. Offerors shall acknowledge receipt of any amendment to this solicitation by the date and time specified in the amendment(s).

(b) **SUBMISSION, MODIFICATION, REVISION, AND WITHDRAWAL OF OFFERS.**

(1) Unless other methods (e.g., electronic commerce or facsimile) are permitted in the solicitation, signed and dated offers and modifications thereto shall be submitted in paper media in sealed envelopes or packages (i) addressed to the office specified in the solicitation, and (ii) showing the time and date specified for receipt, the solicitation number, and the name and address of the offeror at or before the exact time specified in this solicitation. Offerors using commercial carriers should ensure that the offer is marked on the outermost wrapper with the information in subdivisions (i) and (ii) above. Offers may be submitted on the SF 1449, letterhead stationery, or as otherwise specified in the solicitation.

(2) The first page of the offer must show--

(i) The solicitation number;

(ii) The name, address, and telephone and facsimile numbers of the offeror (and electronic address if available);

(iii) Include name, title, and signature of person authorized to sign the offer. Offers signed by an agent shall be accompanied by evidence of that agent's authority, unless that evidence has been previously furnished to the issuing office.

(iv) A technical description of the items being offered in sufficient detail to evaluate compliance with the requirements in the solicitation. This may include product literature, or other documents, if necessary;

(v) Terms of any express warranty;

(vi) Price and any discount terms; and

(vii) A completed copy of the representations and certifications in the Offeror Submission Package.

(3) **IFBs ONLY.**

(i) Facsimile bids _____ authorized for this solicitation.

(ii) **EVALUATION - Net Payment Terms.** Offers under an IFB that include net payment terms less than 30 days will be determined nonresponsive.

(4) **RFPs ONLY.**

(i) If the offer is not submitted on the SF 1449, include a statement specifying the extent of agreement with all terms, conditions, and provisions included in the solicitation. Offers that fail to furnish required representations or information, or that reject the terms and conditions of the solicitation may be excluded from consideration.

(ii) Past performance information, when included as an evaluation factor, to include recent and relevant contracts for the same or similar items and other references (including contract numbers, points of contact with telephone numbers and other relevant information); and

(c) **STANDARD INDUSTRIAL CLASSIFICATION (SIC) CODE AND SMALL BUSINESS SIZE STANDARD.**

The SIC code and small business size standard for this acquisition appear in Block 10 of the solicitation cover sheet (SF 1449). However, the small business size standard for a concern that submits an offer in its own name, but which proposes to furnish an item that it did not itself manufacture, is 500 employees.

(d) **PERIOD FOR ACCEPTANCE OF OFFERS.** The offeror agrees to hold the prices in its offer firm for 120 calendar days from the date specified for receipt of offers, unless another time period is specified in an addendum to the solicitation.

(e) **PRODUCT SAMPLES.** When required by the solicitation, product samples shall be submitted at or prior to the time specified for receipt of offers. (f) **MULTIPLE OFFERS.** Offerors are encouraged to submit multiple offers presenting alternative terms and conditions or commercial items for satisfying the requirements of this solicitation. Each offer submitted will be evaluated separately.

L2.05-5 (CONT'D)

(g) LATE OFFERS.

(1) **FOR IFBs.** See the LATE SUBMISSIONS, MODIFICATIONS, AND WITHDRAWALS OF BIDS provision in Addendum 1.

(2) FOR RFPs.

(i) Any proposal received at the office designated in the solicitation after the exact time specified for receipt of offers will not be considered unless it is received before award is made and--

(A) It was sent by registered or certified mail not later than the fifth calendar day before the date specified for receipt of offers (e.g., an offer submitted in response to a solicitation requiring receipt of offers by the 20th of the month must have been mailed by the 15th);

(B) It was sent by mail (or telegram or facsimile, if authorized) or hand-carried (including delivery by a commercial carrier) if it is determined by the Government that the late receipt was due primarily to Government mishandling after receipt at the Government installation;

(C) It was sent by U.S. Postal Service Express Mail Next Day Service-Post Office to Addressee, not later than 5:00 p.m. at the place of mailing two working days prior to the date specified for receipt of proposals. The term **working days** excludes weekends and U.S. Federal holidays;

(D) It was transmitted through an electronic commerce method authorized by the solicitation and was received at the initial point of entry to the Government infrastructure not later than 5:00 p.m. one working day prior to the date specified for receipt of proposals;

(E) There is acceptable evidence to establish that it was received at the activity designated for receipt of offers and was under the Government's control prior to the time set for receipt of offers, and the Contracting Officer determines that accepting the late offer would not unduly delay the procurement; or

(F) It is the only proposal received.

(ii) Any modification or revision of a proposal or response to request for information, including any final proposal revision, is subject to the same conditions as in subparagraphs (c)(3)(i)(A) through (c)(3)(i)(E) of this provision.

(iii) The only acceptable evidence to establish the date of mailing of a late proposal or modification or revision sent either by registered or certified mail is the U.S. or Canadian Postal Service postmark both on the envelope or wrapper and on the original receipt from the U.S. or Canadian Postal Service. Both postmarks must show a legible date or the proposal, response to a request for information, or modification or revision shall be processed as if mailed late. **Postmark** means a printed, stamped, or otherwise placed impression (exclusive of a postage meter machine impression) that is readily identifiable without further action as having been supplied and affixed by employees of the U.S. or Canadian Postal Service on the date of mailing. Therefore, offeror or respondents should request the postal clerk to place a legible hand cancellation bull's eye postmark on both the receipt and the envelope or wrapper.

(iv) Acceptable evidence to establish the time of receipt at the Government installation includes the time/date stamp of that installation on the proposal wrapper, other documentary evidence of receipt maintained by the installation, or oral testimony or statements of Government personnel.

(v) The only acceptable evidence to establish the date of mailing of a late offer, modification or revision, or withdrawal sent by Express mail Next Day Service-Post Office to Addressee is the date entered by the post office receiving clerk on the "Express Mail Next Day Service-Post Office to Addressee" label and the postmark on both the envelope or wrapper and on the original receipt from the U.S. Postal Service. **Postmark** has the same meaning as defined in paragraph (c)(3)(iii) of this provision, excluding postmarks of the Canadian Postal Service. Therefore, offerors or respondents should request the postal clerk to place a legible hand cancellation bull's eye postmark on both the receipt and the envelope or wrapper.

(vi) Notwithstanding paragraph (c)(3)(i) of this provision, a late modification or revision of an otherwise successful proposal that makes its terms more favorable to the Government will be considered at any time it is received and may be accepted.

(vii) Proposals may be withdrawn by written notice or telegram (including mailgram) received at any time before award. If the solicitation authorizes facsimile proposals, proposals may be withdrawn via facsimile received at any time before award, subject to the conditions specified in the FACSIMILE PROPOSALS provision. Proposals may be withdrawn in person by an offeror or an authorized representative, if the representative's identity is made known and the representative signs a receipt for the proposal before award.

(viii) If an emergency or unanticipated event interrupts normal Government processes so that proposals cannot be received at the office designated for receipt of proposals by the exact time specified in the solicitation, and urgent Government requirements preclude amendment of the solicitation or other notice of an extension of the closing date, the time specified for receipt of proposals will be deemed to be extended to the same time of day specified in the solicitation on the first work day on which normal Government processes resume. If no time is specified in the solicitation, the time for receipt is 3:00 p.m., local time for the designated Government office.

(h) Unless otherwise specified in the solicitation, the offeror may propose to provide any item or combination of items.

(i) Proposals submitted in response to this solicitation shall be in English and in U.S. dollars unless otherwise permitted by the solicitation.

(j) Offerors may submit revised proposals only if requested or allowed by the Contracting Officer.

(k) Proposals may be withdrawn at any time before award. Withdrawals are effective upon receipt of notice by the Contracting Officer.

L2.05-5 (CONT'D)

(l) CONTRACT AWARD.

(1) RFPs ONLY (not applicable to IFBs).

(i) While the Government intends to evaluate offers and award a contract without discussions, it reserves the right to conduct discussions if later determined by the Contracting Officer to be necessary.

(ii) The Government intends to evaluate proposals and award a contract after conducting discussions with offerors whose proposals have been determined to be within the competitive range. If the Contracting Officer determines that the number of proposals that would otherwise be in the competitive range exceeds the number at which an efficient competition can be conducted, the Contracting Officer may limit the number of proposals in the competitive range to the greatest number that will permit an efficient competition among the most highly rated proposals. Therefore, the offeror's initial proposal should contain the offeror's best terms from a price and technical standpoint.

(iii) Exchanges with offerors after receipt of a proposal do not constitute a rejection or counteroffer by the Government.

(2) The Government intends to award a contract or contracts resulting from this solicitation to the responsible offeror(s) whose offer(s) conforming to the solicitation will be most advantageous to the Government, cost or price and other factors (including subfactors) specified elsewhere in this solicitation, considered.

(3) The Government may reject any or all offers if such action is in the Government's interest.

(4) The Government may waive informalities and minor irregularities in offers received.

(5) The Government may accept any item or group of items of a proposal, unless the offeror qualifies the proposal by specific limitations. Unless otherwise provided in the Schedule, proposals may not be submitted for quantities less than those specified. The Government reserves the right to make an award on any item for a quantity less than the quantity offered, at the unit prices offered, unless the offeror specifies otherwise in the offer.

(6) A written award or acceptance of offer mailed or otherwise furnished to the successful offeror within the time specified in the offer shall result in a binding contract without further action by either party.

(7) The Government may disclose the following information in postaward debriefings to other offerors:

(i) The overall evaluated cost or price and technical rating of the successful offeror;

(ii) The overall ranking of all offerors, when any ranking was developed by the agency during source selection;

(iii) A summary of the rationale for award; and

(iv) For acquisitions of commercial items, the make and model of the item to be delivered by the successful offeror.

As of the date of this provision, terrorist countries include Cuba, Iran, Iraq, Libya, North Korea, Sudan, and Syria.

(3) **Significant interest**, as used in this provision means--

(4) **Other Required Documents.** The offeror shall submit all other documents required by the terms and conditions of this solicitation, e.g., subcontracting plans, supply commitment letters, or mine authorizations, as applicable.

(5) **Exceptions.**

(i) Any exceptions the offeror takes to the terms and conditions of the solicitation must be submitted with the offer. Only exceptions detailed in the offer will be treated as exceptions to the terms and conditions of the solicitation. Any exceptions taken by the offeror will be considered by the Government and either accepted or rejected. Exceptions that are accepted by the Government will be incorporated into any resultant contract; exceptions that are rejected by the Government must be withdrawn by the offeror or the offer will be rejected.

(ii) If the offeror does not take any exceptions, completion of blocks 12, 17 through 24, and 30 of the SF 1449 signifies the offeror's agreement to the terms and conditions contained in the solicitation.

(b) **PAST PERFORMANCE SUBMISSION.**

(1) In addition to its offer, each offeror must complete the Contractor Performance Data Sheet (CPDS) (Attachment 1). The contracts and/or subcontracts submitted on the CPDS should be similar in nature to the solicitation requirements and completed within the last 3 years. All contracts/subcontracts submitted should have a minimum of one year's performance history. The Government reserves the right to consider contracts still in progress and to consider contract and/or subcontract information outside the specified time periods. The contracts may include efforts undertaken on behalf of the Defense Energy Support Center, other Federal agencies (including those performed for non-DoD activities), quasi-government organizations, State or local governments, and/or private industry. By submitting the CPDS, the offeror agrees to permit the Government's representatives to contact the references listed and inquire as to the past performance of the offeror.

(2) If the offeror determines that it has not performed any contracts or subcontracts for the same or similar work required by the solicitation, the offeror should indicate this on the CPDS by marking the appropriate box.

L5.01 AGENCY PROTESTS (DFSC AUG 1997) - DLAD

(b) Protests filed with the Director, DFSC Commodity Business Unit, pursuant to Executive Order 12979 should be addressed to the Contracting Officer, but should clearly state that they are an "Agency Level Protest under Executive Order 12979." The Contracting Officer will forward the protest to the DFSC Director of the appropriate commodity business unit for a decision. (This process allows for a higher level decision on the initial protest, it is not a review of a Contracting Officer's decision on a protest filed with the Contracting Officer.)

(c) Absent a clear indication of the intent to file an agency level protest under Executive Order 12979, protests will be presumed to be protests to the Contracting Officer.

(d) To the maximum extent possible, all parties shall use their best efforts to resolve concerns at the Contracting Officer level through frank and open discussions.

(DLAD 52.233-9000, revised)

L46 SINGLE UNIT PRICE REQUIRED (DFSC JUN 1996)

Subparagraph (b)(4) of the DELIVERY CONDITIONS (by various means) clause defines the minimum amount of product that can be required in a single delivery for tank wagons. All offerors must offer a single unit price to provide for the minimum required delivery for tank wagons. All offerors must offer a single unit price to cover any quantity of product that may be required in a single delivery under the contract. Offers that provide for a unit price that fluctuates according to the quantity delivered in a single delivery are not acceptable.

L54 SITE VISIT (DFSC OCT 1992)

(a) It is the responsibility of the offerors/bidders to inspect the site where supplies are to be delivered and to obtain all available information about the site necessary to satisfy themselves about general and local conditions that may affect delivery and the cost of contract performance, to the extent that the information is reasonably obtainable. Offerors/bidders are responsible for any costs incurred for any site inspection and for obtaining information.

(b) In no event shall failure to inspect the site constitute grounds for a claim after contract award.

M3.01 EVALUATION OF OFFERS WHERE UNCOMMON ESCALATORS ARE USED (DESC JAN 1998)

(a) **FOR EVALUATION PURPOSES ONLY**, an evaluation factor will be applied to the Final Revised Proposal (FRP) prices of those items in which uncommon escalators are proposed as a basis for economic price adjustments. The evaluation factor will establish a commonality among the different postings or publications offered in order to ensure that all offerors are evaluated on an equal basis.

(b) The offeror's margin (plus or minus) will be established as the difference between the FRP price and the Final Revised reference price. The margin will then be added to the 12-month average of the posting or publication being proposed to determine the evaluated price. The 12-month average will be calculated over the most recent complete 12-month period prior to the established reference date (i.e., if reference date is August 22, 1994, then the 12-month period would be August 1993 - July 1994).

M63.01 EVALUATION OF OFFERS FOR ALTERNATE PRODUCT (PC&S) (DFSC DEC 1993)

(a) Where an activity can accept either gasohol or gasoline, the item numbers and delivery narratives in the Schedule will be shown for each type product. Offerors may offer on either or both products. Any award will be made for the product that receives the lowest evaluated offer. The Government will use an evaluation factor based on the difference between the Federal Excise Tax (FET) for gasoline and gasohol at the prevailing rate on the date of bid opening or closing of negotiations. This difference, adjusted by the anticipated percentage of on-highway use as shown in the delivery schedule, will be deducted from the gasohol offered price(s) prior to the application of other applicable evaluation criteria.

(b) Do not include the FET for either product in your offer price.

(DFSC 52.214-9F02)

M72 EVALUATION OF OFFERS (EXCEPTIONS/DEVIATIONS) (DFSC APR 1997)

(a) Offerors are expected to submit offers in full compliance with all terms and conditions of this solicitation.

(b) Any exceptions/deviations to the terms and conditions of this solicitation will result in the Government's determination that either--

(1) The exception/deviation is material enough to warrant rejection of the offer in part or in full; or

(2) The exception/deviation is acceptable.

(c) If the exception/deviation is in reference to a specification contained in this solicitation and the offeror cannot supply product fully meeting the required specification(s), the product can be offered for consideration provided the offeror clearly indicates, by attachment to the offer, the extent to which any product offered differs from the required specification(s).

(d) If the exception/deviation is in reference to a particular test, inspection, or testing method contained in this solicitation, the offer can be considered provided the offeror clearly indicates, by attachment to the offer, the extent to which its offer differs from those requirements.

(e) If the exception/deviation is determined acceptable, offered prices may be adjusted, for evaluation purposes only, by the Government's best estimate of the quantitative impact of the advantage or disadvantage to the Government that might result from making an award under those circumstances.

M72.02 EVALUATION FACTORS FOR BEST OVERALL VALUE (DOMESTIC)(DESC FEB 1998)

(a) **APPLICATION.** This provision applies only after all price evaluation factors have been considered.

(b) **BASIS OF AWARD.**

(1) The Government will award contracts to the responsible offeror(s) whose offer conforms to the solicitation and that represent the best overall value. The Government will determine best overall value on the basis of an integrated assessment of the following evaluation factors, which are in descending order of importance:

(i) Price;

(ii) Past Performance; and

(iii) Socioeconomic Commitment.

M72.02 (CONT'D)

The relative influence of price, past performance and socioeconomic commitment will depend on the differences among the competing offerors, and not on any predetermined, fixed, weighted arrangements or trade-off formula. Price is more important than past performance and price combined with past performance is significantly more important than socioeconomic commitment.

(2) In determining best overall value, the Government will evaluate and rate each offeror's past performance based on pre-established standards. The offer(s) selected as best value will represent the best tradeoff to the Government among price, past performance and socioeconomic commitment. The Government may make award to other than the lowest priced offeror, however the Government will not pay a premium that it considers disproportionate to the benefits associated with the offeror's record of past performance and socioeconomic commitment.

(c) **ACCEPTABILITY OF OFFERS.** An offer will be considered acceptable if, and only if, an offeror agrees to the terms and conditions in the solicitation, or if the Government has accepted any exceptions submitted with the offer.

(d) **EVALUATION OF PAST PERFORMANCE.**

(1) The Government will evaluate, based on pre-established standards, the quality of the offeror's past performance. This may include any aspect of past performance that is related to this solicitation. The assessment of the offeror's past performance will be used as a means of evaluating the offeror's ability to meet the solicitation requirements. A record of poor past performance may be considered an indication that the offeror has failed to conform to contract requirements and/or to standards of good workmanship; adhere to contract schedules, including the administrative aspects of performance; provide reasonable and cooperative behavior and commitment to customer satisfaction; and/or display a business-like concern for the interests of the customer. Offerors shall be afforded an opportunity to address unfavorable reports of past performance and the offeror's response, or lack thereof, will be taken into consideration. Recent contracts may be examined to ensure that corrective action measures have been put in place to prevent the recurrence of past performance problems. Prompt actions taken to correct performance problems may be considered a reflection of management concern for customer satisfaction; however, such action may not mitigate all negative performance trends. Additionally, a record of satisfactory or exceptional past performance will not result in a favorable assessment of an otherwise unacceptable proposal. Offerors lacking relevant past performance history or for which past performance information is not available will not be evaluated favorably or unfavorably on past performance.

(2) The Government reserves the right to consider any information available to it in evaluating an offeror's past performance. This includes information obtained from the offeror's references, past and present customers, subcontractors, and any other sources that may have useful information. However, the Government reserves the right not to contact all of the references listed by the offeror. The Government also reserves the right to assess the offeror's past performance based solely on the offeror's performance under an existing DESC contract or a previous DESC contract for work similar to that required by the solicitation.

(3) The subfactors listed below are equal to one another in importance and will be used to evaluate past performance:

- (i) **QUALITY OF PRODUCT AND SERVICE.** Assessment of the offeror's ability to conform to contract requirements, specifications and standards of good workmanship.
- (ii) **SCHEDULE.** Assessment of the offeror's ability to meet delivery schedules, respond to administrative issues in a timely manner, and to complete a contract.
- (iii) **BUSINESS RELATIONS.** Assessment of the offeror's commitment to maintaining an acceptable level of performance, customer satisfaction, and meeting small, small disadvantaged and women-owned business participation goals, as applicable. This includes the offeror's history of reasonable and cooperative behavior, participation in problem identification and corrective action measures.

(e) **EVALUATION OF SOCIOECONOMIC COMMITMENT.**

(1) The socioeconomic proposal provided by the offeror will be evaluated as follows:

- (i) As a separate factor, for the offeror's proposal under this solicitation, and
- (ii) As an element of the Business Relations subfactor of the Past Performance Factor.

(2) The Government will evaluate, based on pre-established standards, the extent to which an offeror proposes to use small, small disadvantaged and women-owned small businesses. An offeror that demonstrates greater commitment to partnering and subcontracting with small, small disadvantaged and women-owned small businesses will receive more favorable ratings. An offeror with a higher percentage, complexity level, and variety of participation by small, small disadvantaged and women-owned small businesses generally will receive more favorable ratings. An offeror's current efforts to develop additional opportunities for small, small disadvantaged and women-owned small businesses will also be considered.

(3) The offeror's proposal for socioeconomic support will be made a part of any resultant contract for use in determining how well the Contractor adheres to its socioeconomic plan. This plan will be monitored by the cognizant Defense Contract Management Command's small business office as a means of assisting the Contracting Officer in determining how well the Contractor performs. This determination may be used in future best value decisions.

M72.02 (CONT'D)

(f) BEST VALUE DETERMINATION .

After the past performance ratings are determined, a series of paired comparisons will be made between competing offerors for each line item. In making these paired comparisons, the Government will determine the difference in price, past performance and socioeconomic commitment. If, in any paired comparison, one offeror is superior in past performance and offers the lowest price, then the Government will consider that offeror to represent the better value. But, if the offeror with the superior past performance offers a higher price than the competing offeror, the Government will decide whether the superior past performance merits the higher price. If so, then the Government will consider the offeror with superior past performance at a higher price to represent the best value. Otherwise, the Government will consider the competing offeror with the lower price and lower past performance rating to represent a better value. If, in any paired comparison, the offerors are equal in the elements of price and past performance, then the offeror with the superior socioeconomic evaluation will represent the better value. The Government will continue to make paired comparisons in this manner until it has identified the offeror that represents the best value based on price, past performance and socioeconomic commitment. In the event of a tie among all factors and subfactors between two or more offerors considered to represent the best value, the final award decision shall be made by a drawing by lot limited to those offerors. The drawing shall be witnessed by at least three persons, with the names and addresses of the witnesses and supervising official documented in the contract file.

(a) **WARRANTIES.** The Contractor warrants that--

(1) The unit prices set forth in the Schedule do not include allowances for any portion of the contingency covered by this clause; and

(2) The prices to be invoiced hereunder shall be computed in accordance with the provisions of this clause.

(b) **DEFINITIONS.** As used throughout this clause, the term--

(1) **Base price** means--

(i) The unit price offered for an item and included in the contract award schedule; or

(ii) During any subsequent program year, either the effective contract price as of the start of the subsequent program year, or the price agreed upon as of the start of the subsequent program year.

(2) **Base reference price** means the preselected reference price for an item as published on **October 26, 1998**. In the event one or more applicable reference prices are not (or were not) published on the date shown, then the term **base reference price** means the preselected reference price for an item as published on the date nearest in time prior to the date shown.

(3) **Reference price** means that published reference price or combination of published reference prices preselected by the Government for price adjustment for individual items by product, market area, and publication as specified in (f) below.

(4) **Date of delivery** means--

(i) **FOR TANKER OR BARGE DELIVERIES.**

(A) **F.O.B. ORIGIN.** The date and time vessel commences loading.

(B) **F.O.B. DESTINATION.** The date and time vessel commences discharging.

(ii) **FOR ALL OTHER TYPES OF DELIVERIES.** The date product is received on a truck-by-truck basis.

(5) **Calendar week** means a consecutive seven-day period, beginning with whichever day of the week is specified in (c)(1) below.

(c) **ADJUSTMENTS.** The Contracting Officer shall issue a modification to the contract to reflect any price change pursuant to this clause.

(1) **DAY OF PUBLICATION.**

(i) **PLATT'S BUNKERWIRE AND BUNKERFUELS REPORT.** For items employing Platt's Bunkerwire or Bunkerfuels Report as an escalator, the reference price in effect on the date of delivery shall be that item's preselected reference price that is published on the **Tuesday** of the calendar week in which the delivery is made, or, in the event there is no publication on Tuesday of that week, it shall be the item's preselected reference price published on the previous Tuesday.

(ii) **OTHER PUBLICATIONS.** Except for items employing Platt's Bunkerwire or Bunkerfuels Report as an escalator, the reference price in effect on the date of delivery shall be that item's preselected reference price that is published on the **Monday** of the calendar week in which the delivery is made, or, in the event there is no publication in that week, it shall be the item's preselected reference price as last previously published.

(2) **CALCULATIONS.** The prices payable hereunder shall be determined by adding to the award price the same number of cents, or fraction thereof, that the reference price increases or decreases, per like unit of measure. All arithmetical calculations, including the final adjusted unit price, shall be carried to six decimal places, truncated.

(i) If averages are published within a given publication, then these averages will be used.

(ii) If averages are not available within a given publication, manually calculated averages will be used.

(3) **REVISION OF PUBLISHED REFERENCE PRICE.** In the event--

(i) Any applicable reference price is discontinued or its method of derivation is altered substantially; or

(ii) The Contracting Officer determines that the reference price consistently and substantially failed to reflect market conditions--the parties shall mutually agree upon an appropriate and comparable substitute for determining the price adjustments hereunder. The contract shall be modified to reflect such substitute effective on the date the reference price was discontinued, altered, or began to consistently and substantially fail to reflect market conditions. If the parties fail to agree on an appropriate substitute, the matter

B19.19 (CONT'D)

shall be resolved in accordance with paragraph (d), Disputes, of the CONTRACT TERMS AND CONDITIONS - COMMERCIAL ITEMS clause of this contract.

(4) **FAILURE TO DELIVER.** Notwithstanding any other provisions of this clause, no upward adjustment shall apply to product scheduled under the contract to be delivered before the effective date of the adjustment, unless the Contractor's failure to deliver according to the delivery schedule results from causes beyond the Contractor's control and without its fault or negligence within the meaning of paragraphs (f), Excusable Delays, and (m), Termination for Cause, of the CONTRACT TERMS AND CONDITIONS - COMMERCIAL ITEMS clause of this contract, or is the result of an allocation made in accordance with the terms of the ALLOCATION clause of this contract, in which case the contract shall be amended to make an equitable extension of the delivery schedule.

(5) **UPWARD CEILING ON ECONOMIC PRICE ADJUSTMENT.** The Contractor agrees that the total increase in any contract unit price pursuant to these economic price adjustment provisions shall not exceed 60 percent of the base price in any applicable program year (whether a single year or a multiyear program), except as provided hereafter.

(i) If at any time the Contractor has reason to believe that within the near future a price adjustment under the provisions of this clause will be required that will exceed the current contract ceiling price for any item, the Contractor shall promptly notify the Contracting Officer in writing of the expected increase. The notification shall include a revised ceiling the Contractor believes is sufficient to permit completion of remaining contract performance, along with an appropriate explanation and documentation as required by the Contracting Officer.

(ii) If an actual increase in the reference price would raise a contract unit price for an item above the current ceiling, the Contractor shall have no obligation under this contract to fill pending or future orders for such item, as of the effective date of the increase, unless the Contracting Officer issues a contract modification to raise the ceiling. If the contract ceiling will not be raised, the Contracting Officer shall so promptly notify the Contractor in writing.

(d) **EXAMINATION OF RECORDS.** The Contractor agrees that the Contracting Officer or designated representatives shall have the right to examine the Contractor's books, records, documents, or other data the Contracting Officer deems necessary to verify Contractor adherence to the provisions of this clause.

(e) **FINAL INVOICE.** The Contractor shall include a statement on the final invoice that the amounts invoiced hereunder have applied all decreases required by this clause.

(1) The Contractor is required (unless otherwise instructed by the Government) to provide and maintain an inspection system and a written description (Quality Control Plan (QCP)) acceptable to the Government. The Contractor has the option to provide and maintain an inspection system that, as a minimum, incorporates the requirements of: Q91 (ISO9001) Quality Systems - Model for Quality Assurance in Design/Development, Production Installation, and Servicing, or Q92 (ISO9002) Quality Systems - Model for Quality Assurance in Production and Installation. If the contractor chooses to comply with Q91 or Q92 quality system format, all the specific Quality Assurance Provisions of this contract must be included in the Q91, Q92 written quality plan. The QCP shall be established and reviewed for adequacy by the Quality Representative (QR) prior to commencement of production or services. The copy of the QCP provided to the QR shall be in English. An acceptable QCP is required prior to Government inspection and acceptance of supplies or services. The QCP shall be reviewed and updated when deemed necessary. It will be updated anytime that changes are made to the inspection system or as identified by quality problems. The Contractor must sign and date each revision to the QCP and require subcontractors to sign and date each revision to the subcontractor's QCP.

(2) The Contractor shall require subcontractors (unless otherwise instructed by the Government) to provide and maintain inspection systems and QCPs that are acceptable to the Government.

(3) The QCP shall include an identification of key operational positions, a schematic diagram of plant facilities pertinent to the inspection system indicating all inspection points, and a description covering the following operations relating to the supplies to be furnished under the contract:

- (ii) **BLENDING AND COMPOUNDING.** Identification of component base stocks used to produce finished product. Procedures to be used for adding, prior to batching, all required additives at all locations. When procedures for in-line blending of non-aviation products in accordance with the IN-LINE BLENDING OF NON-AVIATION PETROLEUM PRODUCTS clause are used, the QCP will provide for establishing blend ratios, and identify the responsible personnel within the Contractor's organization authorized to establish the blend ratios;
- (iii) **SAMPLING.** Procedures for sampling additives, blend tanks, shipping tanks, lines, and conveyances/containers in accordance with API Manual of Petroleum Measurement Standards (MPMS), Chapter 8, Section 1, Sampling of Petroleum and Petroleum Products, and/or Section 2, Automatic Sampling of Petroleum and Petroleum Products. Provide description of transfer system from shipping tank to transfer point in order to maintain product integrity. System must be a dedicated or properly isolated common system incorporating blind flanges, spectacle plates, or double valves between them to prevent contamination. Single valves designed to provide the same protection are also acceptable if positive isolation is assured. Systems with single valve (excluding twin seal single valves) isolation require specific procedures be included in the QCP to assure product integrity after the last single valve and prior to the acceptance point. When single valves are present in the system, the contractor shall provide their quality control procedures from the first single valve to the custody transfer point at time of bid to the contracting officer for determination of acceptability. Preparation requirements include hoses. Conveyances carrying lubricating oil will be dry and free from loose rust, scale, and dirt. Conveyances carrying other products will be dry and substantially free from loose rust, scale and dirt. (Procedures to confirm, prior to loading, quality and quantity of product in conveyance when requested by the ordering office to "load on top." Reject conveyance if product cannot be identified or product on board does not meet specification of intended load product. Provide for documentation of load on top occurrences for volume of product prior to load, loaded quantity, and total volume on board the conveyance. Confirm quality and quantity of loaded conveyance.) Provide for investigating discrepancies in either recorded quality or quantity. Seal conveyance and record seal numbers on the DD Form 250. for pre-load discussion between Contractor, vessel, and QR to include, but not be limited to, prior three cargoes and cleaning compliance to Tables V and VI below, loading plan, loading rates, sampling requirements, and after loading sampling and gauging. (Prior to loading - sample, gauge and test intransit cargoes designated for load on top. Sample (1 gallon), gauge, and retain any other product on board, except for JP-7 or JP-TS.) All cargo quantities will be calculated and volume corrected both before and after loading. Assure closing and sealing of sea suction, overboard discharge, and product separation valves and record on DD Form 250-1. Procedures for commencement of loading into one tank up to 3 feet, switching to at most two other vessel tanks, during sample analysis (sampling and testing) to confirm product integrity into first tank. Monitoring the loading from source to vessel, investigating irregularities immediately, stopping loading if necessary. Procedures for after-loading sampling, testing, determination of quantity, and preparation of all paperwork. Procedures for investigating discrepancies in quality (mandated if off-specification or out of testing tolerance) and quantity (mandated if variance is ± 0.5 percent or figures suspect) on loaded conveyance.

(C) **For both f.o.b. origin and destination supplied tankers/barges.** Procedures for immediately notifying the QR when irregularities occur or are suspected and on all occasions when loading is interrupted. Procedures for completing and distributing required documentation prior to release of the vessel. Documentation includes DD Form 250-1 and DD Form 250-1 continuation sheet, ullage reports, bills of lading, customs documentation, and results of quality/quantity investigations. **Authority to release a Government furnished vessel rests with the Government QR after compliance and completion by the Contractor of all required operations, including the preparation of the DD Forms 250-1.**

(x) **RECORDS AND REPORTS.** To include at a minimum, test reports on product and additives, additive blending records, vessel port logs, vessel notice of readiness, DD Forms 250 and 250-1 (the DD Form 250-1 and DD Form 250-1 continuation sheet(s) will be signed by the Contractor in the appropriate block before presenting to the QR), and calibration documents, and will include by whom, where, and how prepared, and retention information.

(xi) **CORRECTIVE ACTION.** Actions to be followed to effect correction of any deficiency affecting product quality or quantity determination, such as handling of off-specification product (waivers, conveyance rejections, etc.).

(4) The QCP shall identify an individual to serve as a point of contact for quality/quantity matters relating to the inspection system described in the plan.

(5) The Contractor is responsible for all inspection systems, QCPs, and product quality and quantity.

(6) The Government QR will be available to review and discuss the Contractor's proposed QCP; however, the Contractor shall remain responsible for developing and describing acceptable quality control procedures.

(b) The Contractor shall perform all inspection and acceptance tests required by the specifications of the supplies to be furnished under this contract or shall have such tests performed in a laboratory acceptable to the Government. When such tests are performed at origin on supplies to be accepted at destination, documentation that will enable verification of the original test results shall be provided to the Government at the time of acceptance.

(c) The Contractor may inspect Government-furnished tankers and barges prior to loading unless specifically prohibited by the Government QR. All other shipping conveyances, exclusive of tankers or barges, shall be inspected by the Contractor prior to loading to determine suitability for loading. If the Contractor and the QR disagree as to the suitability for loading of Government furnished conveyance for supplies to be accepted at origin, the determination of the QR shall govern. Government-furnished transportation equipment that is unsatisfactory for loading shall be reported by the Contractor in accordance with the provisions of the SHIPMENT AND ROUTING clause. Procedures to determine suitability to load tank trucks and tank cars shall include but not be limited to visual inspection of interior compartments to assure cleanliness and dryness. Manifolds must be drained and be clean and dry for intended product.

(d) When requested by the U.S. Government, the Contractor shall furnish no more than five (ten in the case of jet fuel) 1-gallon samples of liquid product or five 1-pound samples of solid or semi-solid product from any individual batch or lot of the supplies to be furnished under this contract. Such samples shall be furnished without charge to the Government and shall be packed, marked, and shipped by the Contractor, at its expense.

(e) The Contractor shall keep all quality and quantity records, including DD Form 250-series documents, complete and available to the Government during the performance of this contract and for three years after final payment under this contract.

(f) Immediately following award of this contract, the Contractor shall notify the QR of the source or sources of the supplies to be furnished under any item calling for delivery f.o.b. destination. The Contractor shall also notify the QR of any changes in source in sufficient time to permit inspection by the Government.

(g) The inspection system and related operations provided or performed pursuant to this clause shall be subject to surveillance by the QR.

THE FOLLOWING CLAUSE APPLIES TO PRODUCT DELIVERED BY BARGE.

E4 INSPECTION AND ACCEPTANCE (DESC NOV 1991)

(a) **INSPECTION.** When Government inspection is required, it will be performed by the Quality Representative assigned responsibility over the location where loading takes place. E5 INSPECTION OF SUPPLIES - FIXED-PRICE (AUG 1996)

(a) **DEFINITION. Supplies**, as used in this clause, includes but is not limited to raw materials, components, intermediate assemblies, end products, and lots of supplies.

(b) The Contractor shall provide and maintain an inspection system acceptable to the Government covering supplies under this contract and shall tender to the Government, for acceptance, only supplies that have been inspected in accordance with the inspection system and have been found by the Contractor to be in conformity with contract requirements. As part of the system, the Contractor shall prepare records evidencing all inspections made under the system and the outcome. These records shall be kept complete and made available to the Government during contract performance and for as long afterwards as the contract requires. The Government may perform reviews and evaluations as reasonably necessary to ascertain compliance with this paragraph. These reviews and evaluations shall be conducted in a manner that will not unduly delay the contract work. The right of review, whether exercised or not, does not relieve the Contractor of the obligations under the contract.

(c) The Government has the right to inspect and test all supplies called for by the contract, to the extent practicable, at all places and times, including the period of manufacture, and in any event before acceptance. The Government shall perform inspections and tests in a manner that will not unduly delay the work. The Government assumes no contractual obligation to perform any inspection and test for the benefit of the Contractor unless specifically set forth elsewhere in this contract.

(d) If the Government performs inspection or test on the premises of the Contractor or a subcontractor, the Contractor shall furnish, and shall require subcontractors to furnish, at no increase in contract price, all reasonable facilities and assistance for the safe and convenient performance of these duties. Except as otherwise provided in the contract, the Government shall bear the expense of Government inspections or tests made at other than the Contractor's or subcontractor's premises; PROVIDED, that in case of rejection, the Government shall not be liable for any reduction in the value of inspection or test samples.

(e) (1) When supplies are not ready at the time specified by the Contractor for inspection or test, the Contracting Officer may charge to the Contractor the additional cost of inspection or test.

(2) The Contracting Officer may also charge the Contractor for any additional cost of inspection or test when prior rejection makes reinspection or retest necessary.

(f) The Government has the right either to reject or to require correction of nonconforming supplies. Supplies are nonconforming when they are defective in material or workmanship or are otherwise not in conformity with contract requirements. The Government may reject nonconforming supplies with or without disposition instructions.

(g) The Contractor shall remove supplies rejected or required to be corrected. However, the Contracting Officer may require or permit correction in place, promptly after notice, by and at the expense of the Contractor. The Contractor shall not tender for acceptance corrected or rejected supplies without disclosing the former rejection or requirement for correction, and, when required, shall disclose the corrective action taken.

(h) If the Contractor fails to promptly remove, replace, or correct rejected supplies that are required to be removed or to be replaced or corrected, the Government may either (1) by contract or otherwise, remove, replace, or correct the supplies and charge the cost to the Contractor or (2) terminate the contract for default. Unless the Contractor corrects or replaces the supplies within the delivery

E5 (CONT'D)

schedule, the Contracting Officer may require their delivery and make an equitable price reduction. Failure to agree to a price reduction shall be a dispute.

(i) (1) If this contract provides for the performance of Government quality assurance at source, and if requested by the Government, the Contractor shall furnish advance notification of the time (i) when Contractor inspection or tests will be performed in accordance with the terms and conditions of the contract and (ii) when the supplies will be ready for Government inspection.

(2) The Government's request shall specify the period and method of the advance notification and the Government representative to whom it shall be furnished. Requests shall not require more than 2 workdays of advance notification if the Government representative is in residence in the Contractor's plant, nor more than 7 workdays in other instances.

(j) The Government shall accept or reject supplies as promptly as practicable after delivery, unless otherwise provided in the contract. Government failure to inspect and accept or reject the supplies shall not relieve the Contractor from responsibility, nor impose liability on the Government, for nonconforming supplies.

(k) Inspections and tests by the Government do not relieve the Contractor of responsibility for defects or other failures to meet contract requirements discovered before acceptance. Acceptance shall be conclusive, except for latent defects, fraud, gross mistakes amounting to fraud, or as otherwise provided in the contract.

(l) If acceptance is not conclusive for any of the reasons in paragraph (k) hereof, the Government, in addition to any other rights and remedies provided by law, or under other provisions of this contract, shall have the right to require the Contractor (1) at no increase in contract price, to correct or replace the defective or nonconforming supplies at the original point of delivery or at the Contractor's plant at the Contracting Officer's election, and in accordance with a reasonable delivery schedule as may be agreed upon between the Contractor and the Contracting Officer; PROVIDED, that the Contracting Officer may require a reduction in contract price if the Contractor fails to meet such delivery schedule, or (2) within a reasonable time after receipt by the Contractor of notice of defects or nonconformance, to repay such portion of the contract as is equitable under the circumstances if the Contracting Officer elects not to require correction or replacement. When supplies are returned to the Contractor, the Contractor shall bear the transportation cost from the original point of delivery to the Contractor's plant and return to the original point when that point is not the Contractor's plant. If the Contractor fails to perform or act as required in (1) or (2) above and does not cure such failure within a period of 10 days (or such longer period as the Contracting Officer may authorize in writing) after receipt of notice from the Contracting Officer specifying such failure, the Government shall have the right by contract or otherwise to replace or correct such supplies and charge to the Contractor the cost occasioned the Government thereby.

(FAR 52.246-2)

THE FOLLOWING CLAUSE APPLIES ONLY TO PRODUCT DELIVERED BY BARGE.

E40 MATERIAL INSPECTION AND RECEIVING REPORT (DEC 1991)

At the time of each delivery of supplies or services under this contract, the Contractor shall prepare and furnish to the Government a Material Inspection and Receiving Report in the manner and to the extent required by Appendix F, Material Inspection and Receiving Report, of the Defense FAR Supplement.

(DFARS 252.246-7000)

F1.09-1 ANNOTATION OF SHIPPING DOCUMENTS (DESC AUG 1996)

(a) For deliveries when temperature compensating meters are used to determine quantity, the shipping document shall be annotated with the API gravity (or density), net quantity, and a statement that a temperature compensating meter was used to determine quantity.

(b) For deliveries when quantity is determined without volume correction to 60°F (15°C) as permitted in the DETERMINATION OF QUANTITY clause, subparagraph (b), the shipping document shall be annotated with the API gravity (or density), gross quantity, and a statement that volume correction was not required.

(c) For all other deliveries, the shipping document shall be annotated with the gross and net gallons (or gross and net liters), the observed and corrected API gravity (or density), and the temperature at which the product was measured.

F1.09-2 DETERMINATION OF QUANTITY (PC&S) (DESC APR 1996)

(a) **QUANTITY.** The quantity of supplies furnished under this contract shall be determined as follows:

(1) **DELIVERIES INTO OR BY TANKER/BARGE.**

(i) **F.O.B. ORIGIN.**

(A) On items requiring delivery at the Contractor's refinery, terminal, or bulk plant on an f.o.b. origin basis, the quantity shall be determined (at the Contractor's option) on the basis of--

- (a) Shore tank measurements; or
- (b) Calibrated meter.

(B) The Government will have the right to have a representative present to witness the measurement of quantity.

(ii) **F.O.B. DESTINATION.**

(A) On items requiring delivery on an f.o.b. destination basis (except for items to be used as ships' bunkers), the quantity shall be determined (at the Government's option) on the basis of receiving shore tank measurements.

(B) The Contractor has the right to have a representative present to witness the delivery and measurement of quantity.

(iii) **F.O.B. VESSEL.**

(A) On items requiring delivery f.o.b. vessel by barge for ships' bunkers, the quantity received will be determined (at the Contractor's option) on the basis of--

- (a) Origin shore tank measurements; or
- (b) By calibrated meter, if the Contractor's facilities are so equipped.

(B) The Government will have the right to have a representative present to witness the measurement of quantity.

(C) When the vessel is unable to receive any or all of the delivery, the Contractor must immediately notify the DESC Contracting Officer of the circumstances and provide documentation to substantiate the quantity and location where excess product has been off-loaded. The Government will have the right to have a representative present to verify these off-load figures.

(2) **DELIVERIES INTO OR BY TANK TRUCK/TRUCK AND TRAILER/TANK WAGON.**

(i) **F.O.B. ORIGIN.**

(A) On items requiring delivery at the Contractor's refinery, terminal, or bulk plant on an f.o.b. origin basis, the quantity shall be determined (at the Contractor's option) on the basis of--

- (a) Certified capacity tables of the conveyance loaded; or
- (b) Calibrated meter; or
- (c) Weight, using calibrated scales.

(B) The Government has the right to have a representative present to witness the measurement of quantity.

(ii) **F.O.B. DESTINATION.** On items requiring delivery on an f.o.b. destination basis, the quantity shall be determined by one of the following methods:

(A) The Contractor shall provide delivery equipment that enables the receiving activity and the Contractor to determine quantity at destination in the delivery conveyance by one of the following:

(a) Calibrated meter (in areas where environmental restrictions prohibit the opening of dome hatches prior to, during, or after off-loading, calibrated meter must be used); or

(b) Certified capacity tables. The tables must be made available at the time of delivery; or

(c) Certified tank calibration markers. Certified tank calibration markers will not be accepted unless the conveyance is full to the marker and the entire quantity is off-loaded at the receiving activity. This method may not be used for deliveries to Army activities.

(B) If one of the methods in (A) above is not specified in the contract narrative for deliveries by transport truck or truck and trailer, the Contractor may use the net quantity determined at the loading point by a calibrated loading rack meter. This quantity must be mechanically imprinted on the loading rack meter ticket that is generated by the loading rack meter. The Government reserves the right to determine the quantity received in gallons at 60 degrees Fahrenheit (or liters at 15 degrees Centigrade) at time of delivery by any valid means available.

(C) In any case, at the Government's option, quantity may be determined at the receiving activity on the basis of--

- (a) Weight, using calibrated scales; or
- (b) A calibrated meter on the receiving tank system.

(D) The Contractor has the right to have a representative present to witness the delivery and measurement of quantity.

(iii) **WATER BOTTOMS.**

(A) Every delivery must be free of all water bottoms prior to discharge; and

F1.09-2 (CONT'D)

(B) The Contractor is responsible for their removal and disposal.

(b) **VOLUME CORRECTION.** Volume correction to gallons at 60 degrees Fahrenheit (or liters at 15 degrees Centigrade) is required for--

(1) All product volumes of chemicals, residual fuels, and lubricating oils measured in tank trucks, trucks and trailers, and tank wagons. For this purpose, residual fuels are any products with a viscosity equal to or greater than a regular (not light) No. 4 Fuel Oil (ASTM D 396).

(2) All other volumes of fuels and fuel oils measured in tank trucks, trucks and trailers, and tank wagons which are in excess of 3,500 gallons.

(c) **MEASUREMENT STANDARDS.** All measurements and calibrations made to determine quantity shall be in accordance with the most recent edition of the API Manual of Petroleum Measurement Standards. Certified capacity tables shall mean capacity tables prepared by an independent inspector or any independent surveyor. In addition, the following specific standards will be used as applicable:

(1) API Manual of Petroleum Measurement Standards Chapter 7, Method of Measuring the Temperature of Petroleum Products (API 2543/ASTM D 1086). In areas where the metric system is used, an equivalent type Centigrade thermometer may be used.

(2) API Manual of Petroleum Measurement Standards Chapter 9, Section 1, Density Determination (ASTM D 1298).

(3) API Manual of Petroleum Standards Chapter 3, Method of Gauging Petroleum Products (API 2545/ASTM D 1085). A water indicating paste (Testmaster, manufactured by Steward Hall Chemical Corp., 222 Washington St., Mount Vernon, NY 10553, or equivalent) capable of providing a reliable sharp color change in water bottoms containing 50% fuel system icing inhibitor (either Ethylene Glycol Monomethyl Ether or Diethylene Glycol Monomethyl Ether as applicable) shall be used for obtaining water cuts in aviation turbine fuels.

(4) API Manual of Petroleum Measurement Standards Chapter 11.1, Volume Correction Factors (API 2540/ASTM D 1250/IP 200). Either the printed version or the computer subroutine version of the standard may be used.

(i) For crude oils, JP4, and Jet B, use Volume I, Tables 5A and 6A (or Volume VII Tables 53A and 54A).

(ii) For lubricating oils, use Volume XIII, Tables 5D and 6D (or Volume XIV, Tables 53D and 54D).

(iii) For all other fuels and fuel oils, use Volume II, Tables 5B and 6B (or Volume VIII, Tables 53B and 54B).

(iv) Volume XII, Table 52, shall be used to convert cubic meters at 15 degrees Centigrade to barrels of 60 degrees Fahrenheit, except when this method is restricted by foreign law. Convert liters at 15 degrees Centigrade to cubic meters at 15 degrees Centigrade by dividing by 1,000. Convert gallons at 60 degrees Fahrenheit to barrels at 60 degrees Fahrenheit by dividing by 42. Should foreign law restrict conversion by this method, the method required by law shall be stated in the offer.

(v) If the original measurement is by weight, using calibrated scales, then--

(A) Volume XI, Table 8, shall be used to convert pounds to U.S. gallons at 60 degrees Fahrenheit.

(B) Volume XII, Table 58, shall be used to convert metric tons to U.S. gallons at 60 degrees Fahrenheit.

(vi) For other than crude oils, lubricating oils, fuels, and fuel oils, volume correction shall be made in accordance with the product specification or as stated elsewhere in the solicitation.

(5) API Manual of Petroleum Measurement Standards Chapter 4, Proving Systems. All meters used in determining product volume shall be calibrated using this standard with the frequency required by local regulation (foreign or domestic). If no local regulation exists, then the frequency of calibration shall be that recommended by the meter manufacturer or every 6 months, whichever is more frequent.

(d) **UNITS OF QUANTITY.**

(1) Depending upon the unit shown in the Schedule, the unit of quantity, as used in this contract, shall be--

(i) The barrel of 42 U.S. gallons;

(ii) The U.S. gallon of 231 cubic inches;

(iii) The long ton of 2,240 pounds;

(iv) The pound of 16 ounces;

(v) The metric ton of 2,204.6 pounds;

(vi) The imperial gallon of 277.42 cubic inches; and

(vii) The liter of 61.026 cubic inches.

Unless otherwise specified in the Schedule, orders placed under items of the Schedule calling for delivery f.o.b. destination by means of barge will be furnished the Contractor at least one week, plus the normal barge running time from point of loading to the destination. The scheduled delivery date may be changed by the Contractor at any time if the Ordering Officer approves.

(b) **DOCUMENTATION.**

Volume (in gallons) delivered will be determined by a before-and-after discharge gauging of vessel tanks corrected to 60° F. Gauges (before-and-after) of Government tanks should be taken as verification of Contractor equipment gauges. The Government tank gauge may be used in lieu of Contractor equipment gauges if weather and/or other conditions make the Contractor equipment gauges inaccurate or inadequate. G9.09 MANDATORY INFORMATION FOR ELECTRONIC FUNDS TRANSFER PAYMENT (AUG 1997)

(a) **METHOD OF PAYMENT.** Payments by the Government under this contract, including invoice and contract financing payments, may be made by check or electronic funds transfer (EFT) at the option of the Government. If payment is made by EFT, the Government may, at its option, also forward the associated payment information by electronic transfer. As used in this clause, the term **EFT** refers to the funds transfer and may also include the information transfer.

(b) MANDATORY SUBMISSION OF CONTRACTOR'S EFT INFORMATION.

(1) The Contractor is required, as a condition of any payment under this contract, to provide the Government with the information required to make payment by EFT as described in paragraph (d) of this clause, unless the payment office determines that submission of the information is not required. However, until January 1, 1999, in the event the Contractor certifies in writing to the payment office that the Contractor does not have an account with a financial institution or an authorized payment agent, payment shall be made by other than EFT. For any payments to be made after January 1, 1999, the Contractor shall provide EFT information as described in paragraph (d) of this clause.

(2) If the Contractor provides EFT information applicable to multiple contracts, the Contractor shall specifically state the applicability of this EFT information in terms acceptable to the payment office.

(c) **CONTRACTOR'S EFT INFORMATION.** Prior to submission of the first request for payment (whether for invoice or contract financing payment) under this contract, the Contractor shall provide the information required to make contract payment by EFT, as described in paragraph (d) of this clause, directly to the Government payment office named in this contract. If more than one payment office is named for the contract, the Contractor shall provide a separate notice to each office. In the event that the EFT information changes, the Contractor shall be responsible for providing the changed information to the designated payment office(s).

(d) **REQUIRED EFT INFORMATION.** The Government may make payment by EFT through either an Automated Clearing House (ACH) subject to the banking laws of the United States or the Federal Reserve Wire Transfer System at the Government's option. The Contractor shall provide the following information for both methods in a form acceptable to the designated payment office. The Contractor may supply this data for this or multiple contracts (see paragraph (b) of this clause).

- (1) The contract number to which this notice applies.
- (2) The Contractor's name and remittance address, as stated in the contract, and account number at the Contractor's financial agent.
- (3) The signature (manual or electric, as appropriate), title, and telephone number of the Contractor official authorized to provide this information.

G9.09 (CONT'D)

(4) For ACH payments only:

- (i) Name, address, and 9-digit Routing Transit Number of the Contractor's financial agent.
- (ii) Contractor's account number and the type of account (checking, saving, or lockbox).

(5) For Federal Reserve Wire Transfer System payment only:

(i) Name, address, telegraphic abbreviation, and the 9-digit Routing Transit Number for the Contractor's financial agent.

(ii) If the Contractor's financial agent is not directly online to the Federal Reserve Wire Transfer System and, therefore, not the receiver of the wire transfer payment, the Contractor shall also provide the name, address, and 9-digit Routing Transit Number of the correspondent financial institution receiving the wire transfer payment.

(e) SUSPENSION OF PAYMENT.

(1) Notwithstanding the provisions of any other clause of this contract, the Government is not required to make any payment under this contract until after receipt, by the designated payment office, of the correct EFT payment information from the Contractor or a certificate submitted in accordance with paragraph (b) of this clause. Until receipt of the correct EFT information, any invoice or contract financing request shall be deemed not to be a valid invoice or contract financing request as defined in the PROMPT PAYMENT clause of this contract.

(2) If the EFT information changes after submission of correct EFT information, the Government shall begin using the changed EFT information no later than the 30th day after its receipt to the extent payment is made by EFT. However, the Contractor may request that no further payments be made until the changed EFT information is implemented by the payment office. If such suspension would result in a late payment under the PROMPT PAYMENT clause of this contract, the Contractor's request for suspension shall extend the due date for payment by the number of days of the suspension.

(f) CONTRACTOR EFT ARRANGEMENTS. The Contractor shall designate a single financial agent capable of receiving and processing the electronic funds transfer under the EFT methods described in paragraph (d) of this clause. The Contractor shall pay all fees and charges for receipt and processing transfers.

(g) LIABILITY FOR UNCOMPLETED OR ERRONEOUS TRANSFERS.

(1) If an uncompleted or erroneous transfer occurs because the Government failed to use the Contractor provided EFT information in the correct manner, the Government remains responsible for (i) making a correct payment, (ii) paying any prompt payment penalty due, and (iii) recovering any erroneously directed funds.

(2) If an uncompleted or erroneous transfer occurs because Contractor provided EFT information was incorrect at the time of Government release of the EFT payment transaction instruction to the Federal Reserve System, and

(i) If the funds are no longer under the control of the payment office, the Government is deemed to have made payment and the Contractor is responsible for recovery of any erroneously direct funds; or

(ii) If the funds remain under the control of the payment office, the Government retains the right to either make payment by mail or suspend the payment in accordance with paragraph (e) of this clause.

(h) EFT AND PROMPT PAYMENT.

(1) A payment shall be deemed to have been made in a timely manner in accordance with the PROMPT PAYMENT clause of this contract if, in the EFT payment transaction instruction given to the Federal Reserve System, the date specified for settlement of the payment is on or before the prompt payment due date, provided the specified payment date is a valid date under the rules of the Federal Reserve System.

(2) When payment cannot be made by EFT because of incorrect EFT information provided by the Contractor, no interest penalty is due after the date of the uncompleted or erroneous payment transaction, provided that notice of the defective EFT information is issued to the Contractor within 7 days after the Government is notified of the defective EFT information.

(i) EFT AND ASSIGNMENT OF CLAIMS. If the Contractor assigns the proceeds of this contract as provided for in the ASSIGNMENT OF CLAIMS clause of this contract, the assignee shall provide the assignee EFT information required by paragraph (d) of this clause. In all respects, the requirements of this clause shall apply to the assignee as if it were the Contractor. EFT information which shows the ultimate recipient of the transfer to be other than the Contractor, in the absence of a proper assignment of claims acceptable to the Government, is incorrect EFT information within the meaning of paragraph (e) of this clause.

(j) PAYMENT OFFICE DISCRETION. If the Contractor does not wish to receive payment by EFT methods for one or more payments, the Contractor may submit a request to the designated payment office to refrain from requiring EFT information or using the EFT payment method. The decision to grant the request is solely that of the Government.

G9.09 (CONT'D)

(k) **CHANGE OF EFT INFORMATION BY FINANCIAL AGENT.** The Contractor agrees that the Contractor's financial agent may notify the Government of a change to the routing transit number, Contractor account number, or account type. The Government shall use the changed data in accordance with paragraph (e)(2) of this clause. The Contractor agrees that the information provided by the agent is deemed to be correct information as if it were provided by the Contractor. The Contractor agrees that the agent's notice of changed EFT data is deemed to be a request by the Contractor in accordance with paragraph (e)(2) that no further payments be made until the changed EFT information is implemented by the payment office.

(FAR 52.232-33)

G150.06-2 SHIPMENT NUMBER TO BE IDENTIFIED ON INVOICES (PC&S) (DFSC AUG 1995)

(a) For purposes of this clause and the contract, "shipment number" for PC&S deliveries is defined as a seven position alpha-numeric number. The first three positions shall always consist of the alpha characters "PCS". The remaining four positions shall contain numeric digits beginning with "0001".

(b) The Contractor must identify the shipment number on each invoice submitted for payment. For each delivery order issued, the first shipment number shall be "PCS0001". The **SAME** shipment number shall be used for multiple deliveries under the same contract line item made on the same calendar day. Shipment numbers shall be consecutively numbered (i.e., 0002, 0003, etc.) for each subsequent day until the delivery order has been completed. The Contractor shall convey the appropriate shipment number to the receiving activity.

11.07 REQUIRED CENTRAL CONTRACTOR REGISTRATION (MAR 1998)

(a) **DEFINITIONS.** As used in this clause--

(1) **Central Contractor Registration (CCR) database** means the primary DoD repository for Contractor information required for the conduct of business with DoD.

(2) **Data Universal Numbering Systems (DUNS) number** means the 9-digit number assigned by Dun and Bradstreet Information Services to identify unique business entities.

(3) **Data Universal Numbering System + 4 (DUNS+4) number** means the DUNS number assigned by Dun and Bradstreet plus a 4-digit suffix that may be assigned at the discretion of the parent business concern for such purposes as identifying subunits or affiliates of the parent business concern.

(b) (1) By submission of an offer, the offeror acknowledges the requirement that a prospective awardee must be registered in the CCR database prior to award, during performance, and through final payment of any contract resulting from this solicitation, except for awards to foreign vendors for work to be performed outside the United States.

(2) The offeror shall provide its DUNS or, if applicable, its DUNS+4 number with its offer, which will be used by the Contracting Officer to verify that the offeror is registered in the CCR database.

(3) Lack of registration in the CCR database will make an offeror ineligible for award.

(4) DoD has established a goal of registering an applicant in the CCR database within 48 hours after receipt of a complete and accurate application via the Internet. However, registration of an applicant submitting an application through a method other than the Internet may take up to 30 days. Therefore, offerors that are not registered should consider applying for registration immediately upon receipt of this solicitation.

(c) The Contractor is responsible for the accuracy and completeness of the data within the CCR, and for any liability resulting from the Government's reliance on inaccurate or incomplete data. To remain registered in the CCR database after the initial registration, the Contractor is required to confirm on an annual basis that its information in the CCR database is accurate and complete.

(d) Offerors and contractors may obtain information on registration and annual confirmation requirements by calling 1-888-227-2423 or via the Internet at <http://ccr.edi.disa.mil>.

This notification shall be furnished within five days of the initiation of the proceedings relating to bankruptcy filing. This notification shall include the date on which the bankruptcy petition was filed, the identity of the court in which the bankruptcy petition was filed, and a listing of Government contract numbers and contracting offices for all Government contracts against which final payment has not been made. This obligation remains in effect until final payment under this contract. (FAR 52.242-13)

All applicable Federal, State, and local taxes and duties means all taxes and duties that the taxing authority, including Puerto Rico and other possessions of the United States, are imposing and collecting on the transactions or property covered by this contract pursuant to written ruling or regulation in effect on the contract date.

After-imposed tax means any new or increased Federal, State, or local excise tax or duty, except social security or other employment taxes, on the transactions or property covered by this contract that the Contractor is required to pay or bear the burden of as the result of legislative, judicial, or administrative action taking effect after the contract date.

After-relieved tax means any amount of Federal, State, or local excise tax or duty, except social security or other employment taxes, that would otherwise have been payable on the transactions or property covered by this contract, but which the Contractor is not required to pay or bear the burden of, or for which the Contractor obtains a refund or drawback, as the result of legislative, judicial, or administrative action taking effect after the contract date.

(b) The contract price includes all applicable Federal, State, or local taxes and duties, except as may be otherwise provided. (For petroleum contracts, see the FEDERAL, STATE, AND LOCAL TAXES EXCLUDED FROM CONTRACT PRICE clause.)

(d) The contract price shall be decreased by the amount of any after-relieved tax.

(e) The contract price shall also be decreased by the amount of any excise tax or duty, except social security or other employment taxes, that the Contractor is required to pay or bear the burden of, or does not obtain a refund of, through the Contractor's fault, negligence, or failure to follow instructions of the Contracting Officer.

(f) The Contractor shall promptly notify the Contracting Officer of all matters relating to any excise tax or duty that reasonably may be expected to result in either an increase or decrease in the contract price and shall take appropriate action as the Contracting Officer directs.

(g) The Government shall, without liability, furnish evidence appropriate to establish exemption from any Federal, State, or local tax when the Contractor requests such evidence and a reasonable basis exists to sustain the exemption.

(5) **JET FUEL.** The FET of \$0.219 per gallon should be included on the Contractor's invoice as a separate item.

A Contractor authorized by IRS to sell fuel tax free should not invoice the FET on sales to the National Guard or on sales of jet fuel for military aircraft, aviation gasoline for military aircraft, motor gasoline used off-highway, and gasohol used off-highway. (b) **GOVERNMENT OPTION TO DEDUCT TAX AND FURNISH TAX EXEMPTION CERTIFICATES.** If this contract provides that the Contractor is to invoice for the Federal tax, the supplies to be furnished under such item at the time this contract is entered into are generally intended for a purpose for which tax exemption cannot be claimed. However, in instances where the invoice price for any item includes the excise tax and tax exemption can be claimed, the applicable tax may be deducted from the order or the invoice by the Government and a tax exemption certificate furnished in lieu of paying the tax. The quantities of supplies or services specified in the Schedule are estimates only and are not purchased by this contract. - (f) Any order issued during the effective period of this contract and not completed within that period shall be completed by the Contractor within the time specified in the order. The contract shall govern the Contractor's and Government's rights and obligations with respect to that order to the same extent as if the order were completed during the contract's effective period; PROVIDED, that the Contractor shall not be required to make any deliveries under this contract after the delivery period expires.

(2) It has submitted a completed application to the Small Business Administration or a Private Certifier to be certified as a small disadvantaged business concern in accordance with 13 CFR 124, Subpart B, and a decision on that application is pending, and that no material change in disadvantaged ownership and control has occurred since its application was submitted. Minority institution means an institution of higher education meeting the requirements of Section 1046(3) of the Higher Education Act of 1965 (20 U.S.C. 1135d-5(3)) which, for purposes of this clause, includes a Hispanic-serving institution of higher education as defined in Section 316(b)(1) of the Act (20.U.S.C. 1059c(b)(1)).

(b) EVALUATION ADJUSTMENT.

(1) Offers will be evaluated by adding a factor of 10 percent to the price of all offers, except--

(i) Offers from small disadvantaged business concerns that have not waived the adjustment;

(ii) For DoD, NASA, and Coast Guard acquisitions, otherwise successful offers from historically black colleges or universities or minority institutions;

(iii) Otherwise successful offers of eligible products under the Trade Agreements Act when the dollar threshold for application of the Act is equaled or exceeded (see Section 25.402 of the Federal Acquisition Regulation (FAR));

(iv) Otherwise successful offers where application of the factor would be inconsistent with a Memorandum of Understanding or other international agreement with a foreign government; and

(v) For DoD acquisitions, otherwise successful offers of qualifying country end products (see sections 225.000-70 and 252.225-7001 of the Defense FAR Supplement).

(2) The factor shall be applied on a line item basis or to any group of items which award may be made. Other evaluation factors described in the solicitation shall be applied before application of the factor. The factor may not be applied if using the adjustment would cause the contract award to be made at a price that exceeds the fair market price by more than the factor in paragraph (b)(1) of this clause.

(c) WAIVER OF EVALUATION ADJUSTMENT. A small disadvantaged business concern may elect to waive the adjustment, in which case the factor will be added to its offer for evaluation purposes. The agreements in paragraph (d) of this clause do not apply to offers that waive the adjustment.

[] Offeror elects to waive the adjustment.

(d) AGREEMENTS.

(1) A small disadvantaged business concern, that did not waive the adjustment, agrees that in performance of the contract, in the case of a contract for--

(i) Services, except construction, at least 50 percent of the cost of personnel for contract personnel will be spent for employees of the concern;

(ii) Supplies (other than procurement from a nonmanufacturer of such supplies), at least 50 percent of the cost of manufacturing, excluding the cost of materials, will be performed by the concern;

(iii) General construction, at least 15 percent of the cost of the contract, excluding the cost of materials, will be performed by employees of the concern; or

(iv) Construction by special trade contractors, at least 25 percent of the cost of the contract, excluding the cost of materials, will be performed by employees of the concern.

(2) A small disadvantaged business concern submitting an offer in its own name agrees to furnish in performing this contract only end items manufactured or produced by small business concerns in the United States. This paragraph does not apply in connection with construction or service contracts.
